

Water Heater Switch Credit Effective August 28, 2008

Radio-Controlled Water Heater Switch

Members, who allow Wabash County REMC to install a load control switch on their water heater for the purposes of controlling the operation of the water heater during periods of peak system loading, shall be given a monthly credit of one dollar (\$1.00), which will be applied to and shown on each monthly electric bill.

The credit will not apply for fractional months or when the usage during that month is less than 500 kilowatt hours.
