

“GS-3” Rate
Three-Phase General Service
Less than 100 KW
Effective January 1, 2012

Availability

This rate is available for all three-phase and general power uses, with a metered peak demand less than 100 KW.

Character of Service

The type of service rendered under this rate schedule shall be alternating current, sixty (60) Hertz, three-phase at voltages agreed upon by Wabash County REMC.

Rate -- Monthly

Facilities Charge	\$50.00 per month
Energy Charge	
First 500 kilowatt-hour usage per month	\$.116265 per KWH
Next 1000 kilowatt-hour usage per month	\$.096278 per KWH
All over 1,500 kilowatt-hours usage per month	\$.081705 per KWH

Conditions of Service

- Should the metered peak demand exceed 100 KW during any two consecutive billing cycles, or any three billing cycles during the past 12 months, this account will be transferred to the Large Power rate schedule.
- The residence usage may be included on this meter, or it can be separately metered and billed under the Residential rate.
- Individual single-phase electric motors are limited to a maximum of 10 horsepower, unless approved by Wabash County REMC. Three-phase motors larger than 50 horsepower must have soft-start controls unless approved by Wabash County REMC.
- This is not a stand-by or supplemental rate. When a renewable energy generation system of 10 KW or larger is interconnected with this meter, this rate does not apply.
- This rate requires continuous service. If the account is disconnected for less than 12 months, all Facility Charges avoided during the disconnected period, plus a re-connect trip charge, shall be paid prior to re-establishing the account in the same name or that of another family member.

Wholesale Power Cost Adjustment

The above rates are subject to purchased power cost tracking adjustments as charged to Wabash County REMC by its power supplier.
