

“SC” Rate
School/Church Large Power Service
Over 100 KVA
Effective January 1, 2012

Availability

This rate is available for general power uses of public schools, churches and other qualified non-profit organizations; with an installed transformer capacity greater than 100 KVA and maximum peak demand of 1,000 kW.

Character of Service

The type of service rendered under this rate schedule shall be alternating current, sixty (60) Hertz, single-phase at standard voltages or three-phase at a voltage agreed upon by Wabash County REMC.

Rate -- Monthly

Facilities Charge:	\$ 90.00 per month
Demand Charge:	\$ 9.25 per kW
Energy Charge:	\$.059171 per KWH

Minimum Monthly Charge

- The minimum monthly charge shall be the minimum transformer capacity charge (KVA minimum) of \$1.00 for each KVA or fractional KVA of transformer capacity that is installed to serve this load, or
- Minimum charge as may be specified in a supplemental contract between the REMC and member.

Determination of Billing Demand

The billing demand shall be the metered maximum average kilowatt load recorded during any period of fifteen (15) consecutive minutes during the month for which the bill is rendered, as recorded by Wabash County REMC’s maximum load meter.

Terms and Conditions of Service

- The member may be required to enter into a written agreement stating the character of load, minimum contract period, minimum monthly charge, and any other charges.
- An associated residence usage may be included on this meter, or it can be separately metered and billed under the Residential rate.
- This rate is available for school/church general power service; requiring greater than 100 KVA transformer capacity.
- Wabash County REMC will furnish and maintain at its expense, one transformation and service drop from its existing primary line. Primary line extensions required to serve the meter point are subject to existing line extension policies.

- When the member requests a primary or secondary line extension beyond the meter point, such poles, wires and other electrical equipment shall be installed and maintained at the member's expense.
- Should the electrical energy furnished under this rate schedule be metered on the primary side of the service transformer, Wabash County REMC shall deduct 1½% of the total energy revenue for that billing month.
- This is not a stand-by or supplemental rate. When a renewable energy generation system of 10 KW or larger is interconnected with this meter, this rate does not apply.
- This rate requires continuous service. If the account is disconnected for less than 12 months, all Facility and Minimum charges avoided during the disconnected period, plus a re-connect trip charge, shall be paid prior to re-establishing the account.

Wholesale Power Cost Adjustment

The above rates are subject to purchased power cost tracking adjustments as charged to Wabash County REMC by its power supplier.
